

PRIME 18

ALL NATURAL INGREDIENTS- Oil Sunflower and roasted soybeans added to insure the highest possible feed intake. The 18% crude protein level maximizes milk production

HIGH ENERGY- High carbohydrate and fat levels maximize energy levels to meet peak milk production while maintaining body condition. This is accomplished with the heat treated soybeans, sunflower, corn, oats, and barley

3 IN 1 MOLASSES- Eliminates dust while providing texture and flavor to enhance palatability and maximize feed consumption

BALANCED MINERAL LEVELS- Correct levels and balanced ratios of minerals to meet the needs of growth, meat, hair and milk production.

CHELATED MINERALS- Improved bioavailability can improve reproductive performance, build immune response and maximize persistence in milk production. Improves hoof strength and hair coat shine

WHOLE GRAINS- A Selected blend of whole grains preferred by goats including corn, oats, barley, roasted soybeans, and sunflowers. This also reduces dust and fines.

PURPOSE STATEMENT- A Nutritionally Balanced Feed Formula With Crimped Corn And A Variety Of Whole Grains For All Phases Of Goat Production.
